### Sweet Dreams

Jul 6, 2010

Fabtex has unveiled two new collections. Genesis Bedding products are created using the bold colors and large patterns (many of which are reversible) of Genesis Fabrics by Fabtex™, 100 percent FR polyester yarn-dyed fabrics specifically designed and manufactured for hospitality use. The bed coverings and window treatments in the collection have a soft hand.

Meanwhile, the Windward Sheer Collection by Fabtex™ brings color and pattern to the line's 77 window sheers, which are designed to be paired with draperies in the Genesis Bedding and

other Fabtex collections. All are manufactured in 118-inch widths.
